Alireza Mehdizadeh

a.l.mahdizadeh@ut.ac.ir — +98 913 037 5350 — Isfahan, Iran
linkedin.com/in/alireza-mehdizadeh — github.com/MR-ARMA

Objective

[Optional: One-sentence summary of your research focus and career goals in AI and CS.]

Education

University of Tehran, Tehran, Iran *Sep 2021 – Jul 2025 (Expected)*
B.Sc. in Computer Engineering
Cumulative GPA: 17.92/20 (≈ 3.75/4.00) Last Two Years GPA: 18.43/20 (≈ 3.88/4.00)

Research Interests

Artificial Intelligence Agents — Reinforcement Learning — Natural Language Processing — Behavioral Modeling

Research Experience & Publications

Second Author, "Return to the Reflection Symmetry of Plane Curves" Collaborated with Prof. Ady Cambraia Junior and Dr. Mostafa Salarinoghabi on geometric transformations in curved spacetime. *Submitted to Bulletin of the Iranian Mathematical Society; under peer review.*

Translator, "Machine Learning Handbook" by Martha White Persian translation to broaden access to modern ML concepts.

Author, *Artificial Intelligence: The Last Achievement of Humanity* Analyzed AI's scientific foundations and philosophical implications for future society.

Projects

B.Sc. Thesis: Deep Learning for Personality & Emotion Analysis in Text Developed Transformer- and RNN-based models (LSTM/GRU/BiLSTM/BiGRU) with Word2Vec and GloVe embeddings. *Key achievements:* Micro-F1 improved by up to 48.9%; predicted INFP personality with 70.05% confidence.

Gender Bias in Job Descriptions Detected and quantified gender bias in Word2Vec and GloVe embeddings for occupational terms; proposed vector-space debiasing strategies.

Work Experience

Data Science Intern, Sepahan Fanavar Plastic Co., Tehran *Jun 2024 – Aug 2024* Developed time-series forecasting models to optimize production planning and increase sales; automated data pipelines and KPI dashboards.

Teaching Assistant, University of Tehran *Sep 2022 – Present*

- **Engineering Mathematics** & **Statistics & Probability**, Dr. Atefeh Hasanzadeh
- **Data Structures & Algorithms**, Dr. Ali Naghash Asadi
- Led tutorials, graded assignments, and mentored 100+ students per term.

Achievements

- Faculty of Engineering Award – Best Student of the Year (2022–23)
- Ranked #1 in cohort for three consecutive years (2022–2025)
- **Coursera Data Science Challenge 1:** Scored 75.82% (median 50.15%), 93rd percentile
- **Coursera Data Science Challenge 2:** Scored 75.09% (median 67.88%), 99th percentile

Technical Skills

Languages:	Python, C++
ML/DS:	TensorFlow, Scikit-learn, Pandas, NumPy
NLP:	Transformers, BERT, Text Preprocessing
Deep Learning:	CNNs, RNNs (LSTM, GRU)
Tools:	Git, GitHub, Jupyter, Matplotlib, Seaborn

Certifications

- Python Programming – Pytopia (2022)
- Statistics, Data Processing, and ML – Pytopia (2022)
- Python for Everybody Specialization – Coursera
- TensorFlow 2.0: Deep Learning & AI – Udemy

Extracurricular & Collaborations

- Content Contributor, BIT Student Journal
- Research collaborator with Prof. Ady Cambraia Junior & Dr. Mostafa Salarinoghabi
- Member, University of Tehran Computer Science Association
